V1588S / V1588 / V1688
Automatic skinning machine

for
fish fillets
with
soft skin

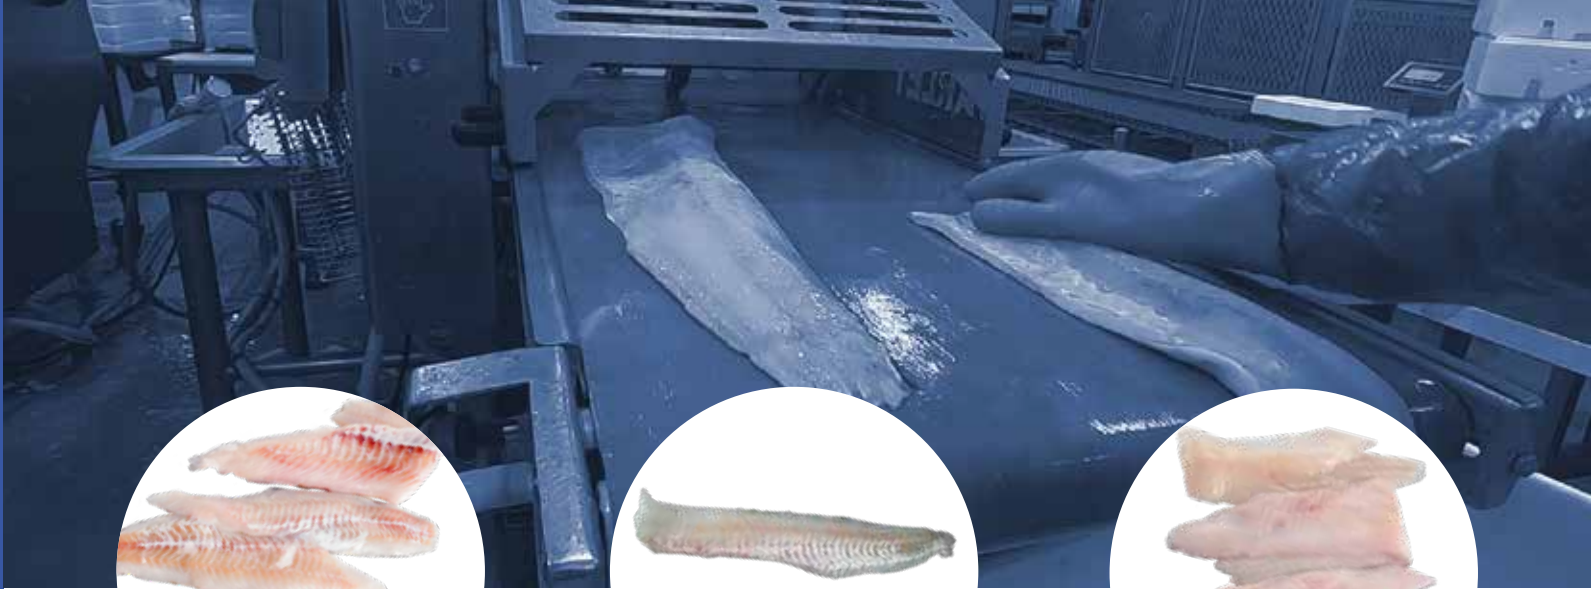

A compact machine to fine
or deeply skin your fish fillets

- ▶ Single or double lane machine
- ▶ Plug & Play
- ▶ Easy to clean
- ▶ Easy to move
- ▶ Industrial capacity

V158S / V158 / V168

Automatic skinning machines

The V158S, V158 and V168 are compact single or double lane skinning machines for small and medium-sized fillets of white fish with soft skin. They are designed to optimize shine and yield, thanks to silver plates that are positioned at the level of the pressure roller (Varlet patent) to hold and guide the fillet. These machines are also suitable for traditional and deep skinning. They feature 2 pressure rollers for simultaneous peeling of 2 fillets, or a single pressure roller for use as a single-lane skinning machine.

Silver skinning (atlantic wolffish and cod)

Traditionnal skinning

Key features

1. Single and/or double lane machine
2. Silver plates to optimize the yield and silver
3. Plug & Play: already configured and easy to operate
4. Easy to assemble/disassemble
5. Easy to clean: lift and remove the conveyor
6. Easy to move: machine on wheels
7. Conveyor mode: no need to move the machine when using the machine as a conveyor
8. Industrial capacity: up to 120 fillets/min
9. 100% stainless steel

The silver plates system increases the yield and the silver aspect on the fillets by guiding the fillets as if they were skinned by hand.

Technical information

Capacity: up to 60 fillets/min (V158S) / 120 fillets/min (V1688)
Water injection with filter: 8 l/min at 2 bars
Speed, infeed belt (standard): 15 m/min
Conveyer width: 310 mm / 582 mm
Cutting width: 320 mm / 595 mm
Width: 770 mm / 1040 mm
Weight: 260 kg / 300 kg
Power connection: 3 x 400 V + PE, 50 Hz*
Power consumption: 1.2 kW
Noise level: 65 dB (A)

* other power connection available upon request

3-year warranty

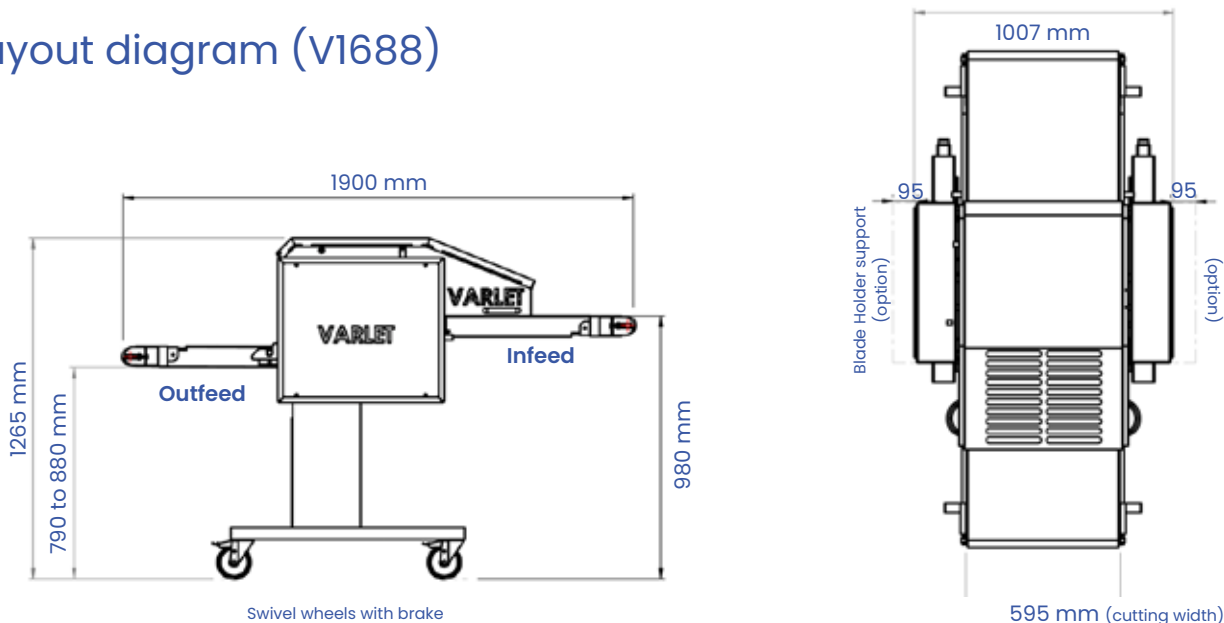

Available options

- Eco'o system: Fillet detection sensor to reduce water consumption
- Speed variator
- Central separator
- Possibility to customize integration to adapt to specific working environments
- Machine height adjustment
- Mixed skinning roller (half/half) (V1688)
